

## **2008 Malbec**

*Rennie Vineyard*

*Estate Grown Certified Organic Grapes*

Yes! A Malbec from California; not Argentina... How many times have you seen that? There is very little Malbec planted in California, while it is the number one red in Argentina.

You'll find in this wine a fine balance, black fruit essence, depth of flavor, likeable texture and a long, toasty, rich finish. Give it a try and go Californian!
